Grass Valley Road Repairs Approved

On Tuesday, the Board of Supervisors approved a \$165,220 contract with William Kanayan Construction of Rimforest to seal cracks, repair pot holes, and resurface five streets in the Grass Valley area of Lake Arrowhead – Crown Drive, Crown Way, Bishorn Drive, Tunnel Drive and Tunnel Court (map attached). Kanayan provided the lowest of thirteen bids to perform the work.

“This much-needed road project delivers benefits for residents of the Grass Valley area,” said Third District Supervisor Dennis Hansberger who represents the community.

The County Department of Public Works estimates work will begin in early April and be completed by early May 2008.
